CENTURIES OLD STRUGGLE ENDS MONDAY NIGHT

House of Lords Sanctions New Settlement With Ireland

(By The Associated Press) LONDON, Dec. 4.—The centuries old struggle between England and Ireland ended tonight when the legislation giving the sanction of law to the new settlement with Ireland passed its final stages in the house of lords which for generations has utterly opposed any accommodation with Ireland.

The constitution bill has gone through both houses of parliament without any amendment and even without division being challenged. Lord Carson alone, whose influence was mainly responsible for failure to settle the Irish question in 1914 and who always has been the most bitter opponent of home rule, persisted to the very end in his role of "last ditcher," even when such traditional anti-home rule rulers as the Marquis of Lansdowne and the Duke of Devonshire had yielded gracefully to the government view and resolved to give Ireland a chance to prove sincerity under new conditions.

Devonshire frankly confessed that the short month in which he has been dealing with Irish affairs in the new government had entirely converted him to the view that Ireland would really "deliver the goods" and he reproached Lord Carson for his denunciatory speech.

There now only remains royal assent, which is a pure formality, and everything will be ready for the new Irish government to come into existence with excellent omens in the expressed desire even of many of the die hard statesmen in England to give every opportunity to succeed in the work not only unhampered but aided by England.

Healy Governor General. Even the appointment of Timothy Healy as governor general of the Irish free state which is momentarily expected to be announced officially, on reflection is recognized as an auspicious event.

When Mr. Healy's name was first mentioned, it was received with astonishment and some incredulity. When a governor generalship is in question the British mind turns naturally in the direction of some titled personage. Now it is admitted the appointment of Mr. Healy would be singularly appropriate.

Mr. Healy has been one of the strongest opponents of British connection and therefore cannot be suspected of the slightest sympathy with British views antagonistic to Ireland. His appointment would link the free state with all previous phases of the home rule struggle, for, besides being one of the greatest lights of the Parnell movement, he is connected with still earlier struggles. By reason of his relationship to T. D. Sullivan, author of "God Save Ireland."

Moreover, Kevin O'Higgins, minister of home affairs who piloted the constitution through the Dail Eireann is Mr. Healy's nephew and Mr. Healy's exceptional intellectual and legal gifts undoubtedly have been at the disposal of the new Irish ministers and are expected to prove invaluable to the new government in its initial stages.

Preparations for the formalities of inaugurating the government and approaching an Irish senate were afoot in Dublin today but it probably will be the end of the week before the senate is completely constituted.

DEFENSE IN LOWE TRIAL OFFERS TESTIMONY

(By The Associated Press) GREELEY, Colo., Dec. 4.—Testimony of defense witnesses in the trial of Bert J. Lowe charged with slaying his sister-in-law, Edna Fern Skinner of Bloomington, Ill., last July 2, was offered today tending to prove that a door alleged to have been closed by the defendant to conceal the commission of the crime was not burned by the explosion which charred the casing of the door and other woodwork in the room.

The state contends that Lowe caused a gasoline stove to explode setting fire to the room in which the alleged murder took place to cover up the crime. Four witnesses said the door was not hanging at the time of the fire but later had been replaced on its hinges to keep the curious out of the house.

The Day In Washington

The final session of the sixty-seventh congress began at noon, ten minutes after adjournment of the special session.

Conference of the Central American powers called to promote friendly relations and encourage reduction of armaments, convened with Secretary Hughes presiding.

Filing of six suits seeking recovery of \$29,000,000 from contractors for alleged overcharges for the construction of Camps Custer, Dix, Dodge, Lee, Pike, and Travis, was announced by the department of justice.

President Harding estimated that government expenditures in the coming fiscal year would total \$3,180,843,000, approximately \$500,000,000 less than the estimated outlay for the current year.

The house authorized its judiciary committee to subpoena witnesses and obtain department of justice needed by Representative Keller of Minnesota in pressing his impeachment charges against Attorney General Daugherty.

Confirmation of the nomination of Pierce Butler as an associate justice of the supreme court was blocked by Senators LaFollette of Wisconsin, and Norris, Nebraska.

Secretary Mellon, in reply to speech of Governor Blaine, of Wisconsin, before progressive conference last Saturday alleging discrimination in favor of wealthy tax payers, declared there is no basis for the charges and suggestions "sought to be conveyed" in the speech.

TURKEY IS STILL HITCHED TO THE SOVIET CHARIOT

Doubt Whether Pasha is Letting Russia Speak Willingly

(By The Associated Press) LAUSANNE, Dec. 4.—Ismet Pasha is still being carried along behind Tchitcherine's chariot tonight so far as members of the Near Eastern conference have been able to learn. Whether Ismet is willingly allowing Russia to speak for Mustafa Kemal's government or dare not assert variance with soviet Russia's views on control of the Bosphorus and the Dardanelles is not clear. Ismet is silent; perhaps he is awaiting instructions from Ankara.

Ismet Pasha says he wants to hear the views of England, France and Italy on control of the straits before he sets forth the definite Turkish plan but his admission that Russia's project for absolute control of the straits and adjacent territory by Turkey alone and the exclusion of all warships except Turkish from the straits approaches nearer to the Turkish idea than any other suggested has created the general impression that Russia is dictating the Turkish policy.

M. Tchitcherine's plan was placed concisely before the delegates at the morning session he insisting Turkey should have control of the straits, that foreign warships should be prohibited entry and that Turkey should be permitted to erect fortifications. He declared that troops and ships would not influence the settlement of the problem of the straits and that their retention there was not possible.

Lord Curzon retorted significantly that foreign troops and ships were there now and were a definite factor in the Near Eastern situation altho he hoped they would not be a permanent factor in the future.

The Turkish delegation tonight issued a statement attacking Curzon's attitude at today's session. The Ankara representatives employed the same words for the head of the British delegation that entente representatives used earlier in the day in speaking of M. Tchitcherine.

"Lord Curzon," they declared, "was certainly provocative and aggressive. He was using an old English maneuver and trying to fog the real issue. His statement that Ismet Pasha was not showing respect for the conference because he was not ready to outline Turkey's position in detail certainly was disrespectful to the head of our delegation."

"The Turkish position is that Turkey is master of straits and is at home there. It was only natural therefore that she should wish first to hear what the European powers want done in the straits."

"Turkey has not come into court to ask something, she is going to state things," was the epigrammatic way in which one Turkish delegate put it. The Ankara representatives thought it only fair that the Ottoman position should be clearly put before the whole world by publication of the text of the statement Ismet read when first called upon today.

COAL OPERATORS TO CONFER WITH MINERS ON WAGE AGREEMENT

Are Said to be Solidly Behind the Settlement Plan

(By The Associated Press) CHICAGO, Dec. 4.—The thirty representatives of bituminous coal operators will go into the joint meeting with miners' representatives here Wednesday solidly behind some plan of wage agreement according to operators who arrived today for the meeting.

A committee meeting presided over by Rice Miller, one of the Illinois delegates adjourned today without taking any action but will meet again tomorrow for a final meeting before the wage agreement hearing the following day.

The failure to take action Mr. Miller said was due more to lack of enough representatives being present than any divergence of opinion.

Illinois operators in a meeting last week agreed to urge district wage agreements but failing in that to favor some compromise based upon the central competitive field arrangement.

CONGRESS RECEIVES PROPOSED BUDGET FOR FISCAL YEAR MONDAY

Is Presented by President Harding—Appropriations Aggregate Very Large Sum—Executive Tells Congress it Must Curtail Federal Aid in Lines of Research

(By The Associated Press) WASHINGTON, Dec. 4.—Appropriations aggregating \$3,078,940,331 for the fiscal year beginning next July 1, were proposed today to congress by President Harding in the second annual federal budget. This is exclusive of the postal service and compares with actual appropriations for this fiscal year totalling \$3,274,238,690.

Government expenditures for the coming fiscal year also exclusive of the postal service were estimated at \$3,180,843,234, as compared with an estimate of \$3,703,801,671 for this fiscal year and an actual outlay of \$3,795,302,499 for the fiscal year ended last June 30.

The total federal revenue for 1924 was reckoned at \$3,361,812,359, or an excess of \$180,969,125 over projected expenditures. The estimated revenue for this fiscal year was \$3,429,862,959, or \$273,938,712 less than the expected outlay.

Mr. Harding said is hoped to eliminate this deficit before the end of the year, adding that if this hope were not realized the expected surplus for 1924 would give a margin to take care of a deficit.

In his message accompanying the detailed budget, the president frankly told congress that whether the country could look forward to any further material reduction in federal expenditures and taxes in future years depended largely upon whether there was curtailment or expansion of federal aid in lines of research, improvement and development.

Attention was called by the executive that approximately two-thirds of the estimated outlay was on account of practically fixed charges such as pensions and world war allowances, public debt, principal and interest, federal and national defense, so that there was only about \$1,000,000,000 subject to administrative control.

TAKES CONGRESS TEN MINUTES TO GET NEW START

Changes from Special Session to New One Monday

(By The Associated Press) WASHINGTON, Dec. 4.—Congress put "off the old and on the new" today with ending of the special session which had been called primarily to consider the shipping bill and the convening of the regular statutory December session. The changing in congressional fashions was made within ten minutes, the extra session begun two weeks ago adjourning at 11:50 and the new being called, to order at high noon.

The routine sessions winding up the special session and opening the new developed little business and drew small crowds. Formal rearrangement of the senate, a Republican against the Democratic filibuster against the Byrd anti-lynching bill ended the term and allowed confirmation of about 1,700 delayed nominations before the final gavel of the special session but the nomination of Pierce Butler to be associate justice of the supreme court failed and went over until the next session thru opposition of Senators LaFollette, Republican, Wisconsin; Norris, Republican, Nebraska, and other Republicans.

Receipt of the annual budget was the principal business of today's session. The usual committee called on President Harding and notified him of the assembling of the new session. It was believed the president would address congress in joint session Wednesday with a message stressing the administration desire for enactment of the shipping bill, farm credit legislation and the annual supply bills in the hope of cleaning up all business by March 5.

The shipping bill passed last week by the house is scheduled to be brought before the senate this week. It will be taken up Wednesday by the commerce committee with a view to a prompt reply to the senate. There were indications today of some delay in this program. Republican members are disposed to fight the Madden amendment requiring annual appropriations out of the marine funds for aid to ship owners.

TAKEN UP ON GENERAL PERSHING LAST NIGHT

J. C. Walsh, local radio enthusiast, telephoned Monday evening that General John J. Pershing was speaking from the Post-Dispatch station at St. Louis. He tuned in for the speech to relay over the telephone, but unfortunately the speech ended before the Journal reporter could catch the drift. It seemed to be a discussion of armament policy.

HOUSE DIRECTS COMMITTEE TO SECURE PAPERS

Judiciary Committee to Get all Papers in Daugherty Case

(By The Associated Press) WASHINGTON, Dec. 4.—The house today directed its judiciary committee to send for all the persons and papers it needed in its investigation of impeachment charges against Attorney General Daugherty as filed by Representative Keller, Republican, of Minnesota. There was no discussion or division when Chairman Volstead asked and obtained consent for such authorization. He explained that the committee had agreed unanimously to take this course. The committee under the house resolution also will have authority to swear witnesses and sit regardless of the sessions of the house. Appearing before the committee with Jackson H. Kelson as his counsel, Mr. Keller declared he was not prepared to proceed at once, that it would be necessary for the house to order the attendance of some witnesses. It was also necessary he said to get possession of certain papers from the files of the department of justice which he could not obtain thru his own efforts.

December 12 was fixed as the time for taking up the charges. The bill of particulars in which Mr. Keller set forth 34 charges against the attorney general and the latter's answer made public last night were formally filed with the committee. Later Representative Woodruff, Republican, Michigan, asked that the two documents be printed in the Congressional Record in parallel columns but Representative Johnson, Republican, of Washington, objected.

Mr. Ralston and Mr. Keller told the committee they would like to have as witnesses, Chief Justice Taft, George W. Wickersham, former attorney general; Samuel Gompers, president of the American Federation of Labor, and Guy Cyster, Mr. Gompers' secretary named.

Taking up the charges generally by chairman Volstead pressed Mr. Ralston who said he was counsel for the American Federation of Labor as to what witnesses he had in mind. Mr. Ralston mentioned Donald E. Riechberg of Chicago, who was counsel for railway employees in the strike injunction proceedings and Stevenson, a lawyer, of Cleveland, O., whose initials he could not give off hand.

The Stareling Play of Today That Shocked Blase Broadway

**Who Are My Parents?**

A vital drama of American Society portrayed in a powerful drama of emotional appeal—it's an epic of life as it's often now lived, and love.

Written by the Mysterious Mr. X., recently featured in many striking magazine articles; beautifully portrayed by an all-star cast, and includes many children.

In the photoplay, "Who Are My Parents?"—a young girl, whose father had forbidden her to marry, goes to Jersey City where the ceremony is performed. Both the girl and the man were ignorant of the law requiring that they live in the state of New Jersey for a specified length of time.

Knowing her father would strenuously object to her marriage, the young married couple decided to live apart for a while. That evening the young man learns of their mistake and rushes to the girl's home. The girl's father refuses to let him see his daughter, and he leaves in a high state of indignation. Wrought up over his stormy interview with the girl's father, he drives his automobile recklessly and as a result is killed in an accident.

A short time later the girl is forced to tell her father of their marriage. He, realizing their marriage was illegal, takes her to another part of the country. When her child is born he tells her it died and returns to their old home. This is just one angle to the melodramatic story, but it clearly depicts one of the biggest causes of domestic difficulties in this country. It proves beyond doubt the trouble that can be caused by the different marriage laws of the various states.

BERTON BRALEY'S DAILY POEM

**Fatigue**

By Berton Braley

I'M tired of working  
For da yaffter day;  
I'm tired of shirking,  
I'm tired of play.  
I'm weary of capers,  
Of good folks or crooks,  
I'm sick of the papers,  
I'm weary of books.

I'M tired of eating  
And drinking, and sleep,  
Of crowds one is meeting,  
Of dates one must keep.  
I'm tired of poet-  
ry, poverty, pelf,  
And, if you must know it,  
I'm tired of myself.

WE all have our seasons  
Of boredom and bile,  
When there are no reasons  
To make life worth while,  
When each of us sputters,  
"This world is a sham!"  
And everyone mutters  
"How tired I am!"

AND so I'll inform all  
The world and his wife,  
That soon I'll find normal  
Enjoyment in life;  
Then, too, though I wryly  
Protest, you'll perceive  
I really am highly  
Enjoying my peeve!

AUTO OVERTURNED ON ROAD NEAR ARNOLD

J. E. Smith of Decatur Suffered Injured Shoulder and Is at Passavant Hospital—H. C. Kruse Also in Car But Was Uninjured.

An automobile in which J. E. Smith of Decatur and Herbert C. Kruse of this city were passengers was overturned on the hard road near Arnold shortly after 6 o'clock Monday evening. Smith, was caught beneath the car and doubled up in such a way that his shoulder was fractured and his spine injured. Mr. Kruse was thrown clear of the car and escaped injury.

A passing car brought the two men to Jacksonville and to the Dunlap hotel, where Dr. Carl E. Black examined Mr. Smith and had him removed to Passavant hospital. An X-ray picture will be taken Tuesday morning but it is not believed that Mr. Smith's injuries are of a serious nature.

A short turn of the car caused the accident. Dr. Kruse at the wheel saw another car approaching from the west and thought the driver signaled his intention to turn to the left. Instead the turn was made to the right and in order avoid collision Mr. Kruse veered his car sharply to one side and it was overturned.

There will also be some discussion in regard to the giving of coupons on wholesale articles.

The gift campaign has developed into a very successful venture and the committee in charge of the undertaking has much credit due them. The members of this committee are Louis L. Horen, chairman; Lloyd Hamilton, Henry Smith, L. F. Randall, J. C. Lukeman, Lloyd Reid, A. R. Taylor, H. B. Andre, J. W. Merrigan, Edward Tomlinson, Fletcher Hopper, and George Lukeman.

C. P. & ST. L. COMMITTEE MAKES TENTATIVE PLANS

Meeting Held in Chamber of Commerce Rooms Yesterday Morning—J. J. Reeve is Attorney for Local People.

The committee on the C. P. & St. L. discontinuance question met Monday morning at the Chamber of Commerce headquarters with Chairman A. R. Eyre and J. J. Reeve who will represent Jacksonville's interests at the hearing in Springfield. At this meeting tentative plans were made for presenting the arguments in the case for Jacksonville and this district.

It was decided at this meeting to send out letter to the different counties through which the C. P. & St. L. operates, to ascertain whether or not they, at any time, floated a bond issue to finance this railroad. The local committee is of the opinion that the "car shop addition" was decided with the understanding that at any time the C. P. & St. L. ceases to operate as a railroad the property would revert to the citizens.

An effort is being made on the part of the Jacksonville committee to have at least twenty-five local people present at the hearing next Saturday in Springfield. If the roads are in proper condition the trip will be made by auto. If not the representatives will then go by train, it being possible to leave Jacksonville on the C. P. & St. L. at 5 o'clock in the morning, or on the Chicago & Alton early morning train to Murraysville, and reach Springfield by about 8 o'clock in the morning.

On Saturday the callers numbered between one and two thousand. More gifts are being added to the list and there will be a total of at least 300 gifts before the distribution starts on January third.

Robert Naven and Miss Ethel Kerns, of Peoria, spent Sunday with Mrs. Anna Hoffman, 411 North Fayette street.

Increase Your Red-Blood-Cells. That's the Sure Way! S. S. S. Builds Blood-Cells; This Means Strength!

Do you know why insurance companies refuse to insure a great many men because they are under weight? Simply because to be under weight often proves loss fighting-power in the body. It often means you are minus nerve-power, minus red-cells in your blood, minus health, minus energy, minus vitality. It is serious to be minus, but the moment you increase the number of your red-blood-cells, you begin to become plus. That's why S. S. ## "THE RED WIDOW" AT THE GRAND TONIGHT

As any well posted person about things theatrical, which are the real musical successes of this and last season and amongst the first three or four he will mention "The Red Widow" with George Demeral and Myrtle Vail, which will be seen at the Grand theatre tonight. With all its splendor of the up-to-the-minute success; its splendid cast of principals singers, dancers, comedians and of course a brigade of blonde and brunette beauties, each a dainty daughter of the golden west. Imagine a whole evening of comedy, perfect scenic environment, and entrancing music from the pen of the best known writers in songland and Charles J. Gebest, it is just one whistly, catchy air after another, it is an old opera in many ways, which is the secret of its success. The book is by Channing Pollock and Rennold Wolf. The most celebrated artists, directors, costumers, property men known on the stage today had a hand in the ultimate success of the "Red Widow." The production is a marvel of spectacular scenery and gorgeous costumes. The color scheme, so important in latter day productions, has been studied up to a completeness absolutely marvelous. The show absolutely beginning to end is a delight to the eye as well as to the ear. That is what counts for success. "The Red Widow" as one of the individual successes.

**ILLINOIS C. OF C. MAKES ITS REPLY**

(By The Associated Press)  
MARION, Ill., Dec. 4.—Stating that its sole object in raising funds for the prosecution of those indicted in connection with the Herin killings was to aid in the enforcement of law and order, the Illinois Chamber of Commerce today replied to Frank Farrington, president of the Illinois Miners' Union, who demanded to know the motives of the body and its attitude toward labor.  
"This institution thru its entire history has never participated directly or indirectly in any controversy in which labor, organized or unorganized, was involved," John H. Camlin, president of the chamber, declared in a letter to President Farrington, which was made public in connection with the trial of five men charged with murder in the mine riots.  
Examination of veniremen in an effort to complete the jury to try the men was continued today but was attended with little success.  
Eight jurors have been chosen and attorneys for the state tendered the last panel of four prospective jurors to the defense but three were disqualified by Judge Hartwell as not being constitutional jurors. It was brought out by the defense in questioning that the trio had expressed opinions as to the guilt or innocence of the defendants, Robert Ritchie a coal miner, vice versa. He said he would take more than evidence to change his opinion as to the guilt and innocence of the defendants, but declared he had never expressed an opinion.  
Charles McIntuff, a farmer, also was being held tentatively in the jury box tonight.

**GREAT LAKES NAVAL STATION COST MILLIONS**

(By The A. P.)  
Construction of the Great Lakes Naval Training Station, abandonment of which has been proposed and a movement against which has been launched, required six years, includes a nearly completed harbor and represents, it is said, an investment of approximately \$10,000,000. It is located thirty two miles north of Chicago on Lake Michigan and has been in operation since July 1, 1911.  
At one period in the World War it accommodated approximately 42,000 men and became known as the world's greatest inland naval training station. It served as one of the navy's most extensive schools for officers and men in every branch of naval science, and, officers declare, to have had at various times one or more recruits from virtually every community in the United States.  
Less than 500 men are stationed at the site, most of whom are in specialty schools giving instruction in radio operation and aviation mechanics. Maintenance cost now is given at \$200,000. General recruit training has been discontinued.  
"Post-war reaction, coupled with strong pressure for the maintenance of coastal training stations, threatens the future of the station," says a statement of the Committee to Save Great Lakes, composed of men and women throughout this section.  
"Recruits from middle-western states, instead of being sent to the station nearest their homes for training, are being transferred to far distant stations. We are building an organization for the purpose of developing interest in the navy by maintaining a sympathetic contact between the navy and the people of the middle west who could not have first hand knowledge of naval activities if the station is closed.  
We are not primarily interested in its maintenance from a sectional point of view, but, if operated on a normal basis, considerable economies will result and enable it to function in a manner befitting its importance as an institution representing the navy in the interior states of the country."

**RELIABILITY OF NEWSPAPER POLL**

CHICAGO.—(By The A. P.)—An instance of reliability of a carefully conducted newspaper poll on an important public issue was demonstrated in the result of the vote in Cook county, Illinois, November 7, on the question of amending the Volstead law to permit the manufacture and sale of light wines and beer.  
The Chicago Journal conducted a straw vote over a period of nearly five months preceding the election, and as a result predicted with almost absolute accuracy the result of the balloting on the question on election day. In the Journal's poll out of 26,494 straw ballots taken, 21,650 or 81.7 per cent, were in favor of light wines and beer. In the official election the Cook county vote was 528,988 for light wines and beer to 135,983 against, or 79.5 in favor. This was a variation of only 2.2 per cent between the newspaper straw vote and the actual official result of the referendum.  
To take the poll, two reporters were selected. They were supplied with ballots similar in form to those to be used in the official referendum with the question printed on them and spaces for crosses for "Yes" or "No."  
Mrs. Ira Patterson is seriously ill at her home on West Walnut street.

**British in Tilt Over Divorce**

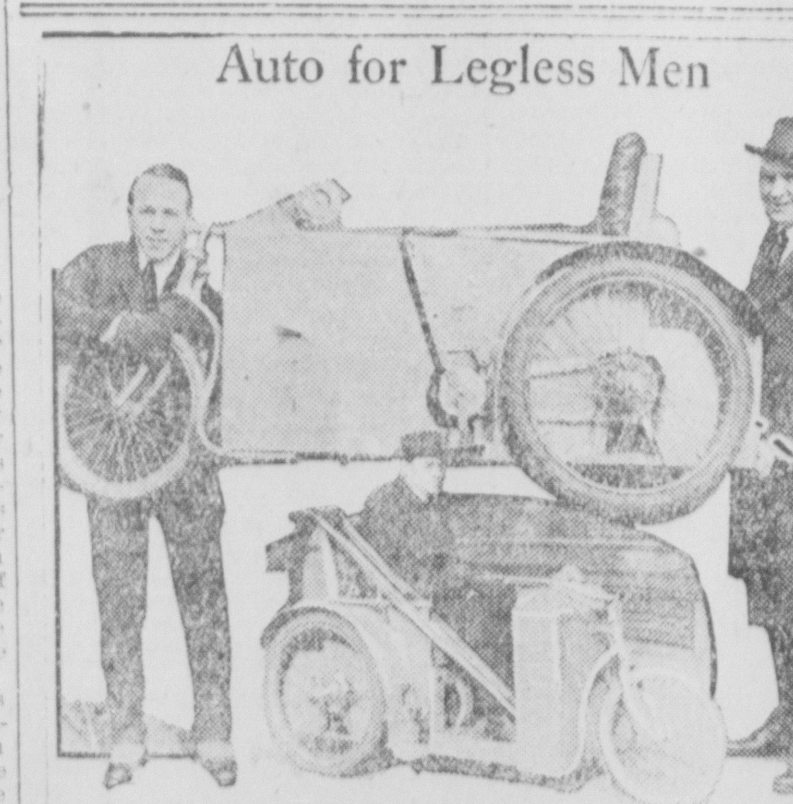

DUKE AND DUCHESS OF MARLBOROUGH

By MILTON BRONNER.  
London—Shall the church or state rule England in the matter of divorce?  
The Anglican church, which has official status here, forbids the remarriage of divorced persons.  
The civil authorities permit such remarriages.  
Both civil and church heads today are demanding a showdown on the question and the Duke of Marlborough, former husband of Consuelo Vanderbilt, is the center of the unique tilt.  
It all started when Consuelo divorced Marlborough. Marlborough then married Miss Gladys Deacon, also an American heiress.  
The Bishop of Oxford immediately declared Marlborough could not be a communicant of the Church of England and barred him from attending the Oxford Diocesan Conference of which Marlborough is a member by hereditary right.  
Marlborough, who he cared little about the right of attending the conference, was nettled when he was barred. He is now demanding that the church recognize him as a communicant.  
Marlborough and his friends maintain that the Church of England, which is supported by the state, is refusing to recognize laws passed by the state and especially laws passed by Parliament, in the upper house of which bishops of the Established Church sit as hereditary legislators.

**ROAD PROGRAM WILL REQUIRE MORE BONDS**

SPRINGFIELD, Ill.—(By A. P.)—Completion of the 4,800 miles of state bond issue hard roads, as mapped out in 1915, will require another bond issue of at least \$50,000,000. Governor Len Small said in announcing that he expected to recommend such an issue to the next legislature.  
The governor said it was necessary to get a bill for the bond issue through the next legislative session in order to submit it at the next general election in November, 1924. Bond issue may be submitted only at general elections.  
Not only completion of the original 4,800 mile system will be urged by the governor, but he will also recommend that the legislature provide for additional mileage. He said that the original \$60,000,000 provided would not build all of the roads which were planned in 1915, because of the advanced cost of construction since the war. Seventeen hundred miles of the 4,800 in the planned system have been constructed.  
"We have used all the money from license fees and all of the federal appropriations to finance the construction work," the governor said, "and in addition to that money we have sold \$17,000,000 of the \$60,000,000 bond issue. Of that \$17,000,000 about \$15,000,000 has been expended in construction and about \$2,000,000 worth of work has been contracted for that is uncompleted."  
Governor Small announced that another contract letting had been planned for next month that would add three or four million more to the \$11,000,000 so that after the December letting about half of the original bond issue will have been used up.

**Auto for Legless Men**

A remarkable automobile for the use of legless men has been invented by Arthur M. Van Rensselaer, wealthy member of one of New York's oldest families who became a cripple after an attack of infantile paralysis, contracted while serving with the 71st Regiment on the Mexican border. The machine is motor-propelled, 32 inches wide, 70 inches long and weighs but 60 pounds. Rensselaer is shown seated in his car.

## LEONARD POTTER HOLDUP VICTIM

Is Ordered to "Stick 'em Up" as  
He Is Going Into House After  
Fitting Car in Garage.

Leonard Potter, 930 South East  
street, was held up and robbed of  
\$18 at 11:30 o'clock last night  
by two masked men.  
Potter had just put his car in  
the garage at his home and after  
closing the door started for the  
house. He was ordered by two  
armed men to "stick 'em up" and  
did not hesitate to follow instruc-  
tions. The men relieved Potter  
of his pocketbook and ran.

Potter reported to the police  
that the men had left an automo-  
bile parked near Whitlock's gro-  
cery in Morton avenue. They ran  
to the car and drove east in Mor-  
ton avenue. It is not known  
whether there was a third man  
waiting in the automobile, but the  
men lost no time in making their  
getaway.

Captain Elliott, with Patrolmen  
Williams and Blue hurried to the  
scene but got no trace of the  
men.

Potter described the men as  
being about six feet tall and said  
that they had their caps pulled  
down over their eyes.

## OBSERVE STATE'S 104TH BIRTHDAY

Chicago, Dec. 4.—Illinois' one  
hundred and fourth birthday was  
observed today by the United  
States Daughters of 1812. For-  
mer Governor Charles S. Deneen,  
the principal speaker at the  
luncheon, declared that Lincoln  
never would have been elected  
president if it had not been the  
twelve northern counties which  
were added to the state.  
Illinois was admitted to the  
union as the twenty-first state on  
December 3, 1818.

## Hobo King Explains

### Secret Code

Jeff Davis, "Hobo King" and Hobo Signs

Cincinnati—Why is it that a  
family not adverse to giving food  
to a man asking it is visited fre-  
quently by such men, while the  
house next door, where there is  
antipathy to hoboes, is never vis-  
ited?

To such men as see "handouts"  
he reason is written in blazing  
letters. But the average person  
however, will not see the signs—  
which may be set down on his  
own gate post.

The sign language of the hob-  
oes is the means by which those  
who have profited or suffered in  
a community leave advice for  
those of the wandering brother-  
hood who follow. Water tanks,  
railway bridges, fences and the  
like bear the tidings—and wise is  
the wanderer who heeds them.

Jeff Davis, "king of hoboes,"  
and international president of the  
"Hoboes of America," compiled  
the set of signs surrounding his  
picture.

Reading from top to bottom,  
the left column signs mean:

1. Police, eyes open.
2. Slow burg—bulls asleep.
3. Dry town—dipper inverted.
4. Many blind pigs—dipper up.
5. One-cop town; stroke below means, only night watchman here.
6. Many handouts—sign near station.
7. Good for handout—sign on gate or door.

8. "Beware Montana"—a  
warning of the 11 months, 29 day  
sentences imposed there.

9. Dog sign—four legs and  
tail.

10. Bum Jane—calls cops,  
hates hoboes.

11. Woodpile—meal if you  
chop.

12. Give money here—cops  
denotes coins.

13. Railroad ducat—these  
folks give money for fare.

Top to bottom, the signs in  
the right hand column mean:

1. Many ties—warning on be-  
ing ditched with long stretch be-  
tween stations.

2. Jail—go there for bed.

3. Thirty days—if pinched.

4. Cheap town—cheap wages,  
poor conditions, and so on.

5. Stake—good town to work  
in to get a stake.

6. Good bulls—treat hoboes  
right.

7. Float—boat, indicating  
judge gives hoboes "floaters."

8. Ten days here.

9. Six months here.

10. Hostile cops—police brace-  
lets or "jewelry."

11. Good restaurant—good  
food for washing dishes.

12. Misce—good for food  
and "float."

13. Angel at mission—too  
sympathetic welfare worker.

14. Mother with a boy a hobo  
—always good for food and  
clothes; seeks tidings of son.

## C. & A. OFFICIALS VISITORS IN CITY

Messrs. Titus and Elliott Here to  
Plan Betterments Around Sta-  
tion.

A. P. Titus, vice president of  
the Chicago & Alton, and William  
Douglas, Jr., chief engineer, came  
to Jacksonville last night in a  
special car attached to the train  
from St. Louis. Mr. Titus and  
Mr. Douglas will meet Mayor  
Crabtree and other city officials  
his morning in conference rela-  
tive to the improvements that  
are to be made around the Alton  
station.

Mr. Crabtree took the matter  
up with the officials a number of  
weeks ago and they expressed  
their entire willingness to enter  
into a betterment program here.  
It is proposed to pave between  
the railroad rails on the East  
state street crossing, the C. & A.,  
of course seeking the co-operation  
of the other roads with interests  
here. The C. & A. will pave the  
space on the west side of the sta-  
tion and this improvement will  
certainly be greatly appreciated  
by those who have occasion to  
drive to the station.

It is possible that as a result of  
the conference a plan may be  
worked out where the yard can  
be paved from the station north  
to provide an easy approach from  
North street across Illinois ave-  
nue. The C. & A. all along has  
manifested a wholly co-operative  
spirit in the matter.

## TAXI DRIVERS HELP POOR BOY

CHICAGO — Edward Ryan 14,  
knows most of the west side driv-  
ers of a large Chicago taxi-cab  
company by their first names. As a  
result Edward has been outfit-  
ted with clothing and other neces-  
sities and is attending St. Joseph's  
Academy at La Grange, with  
mough money in a trust fund to  
keep him for two years.

Edward visited about the com-  
pany's west side garage for a year  
or more, outside of school hours,  
and picked up more knowledge  
of a taxi-cab driver's business  
than many veteran drivers.  
The chauffeurs in turn learned  
that Edward was frequently hun-  
gry, so he shared their lunches.  
They also decided Edward needed  
clothes, and clothes were forth-  
coming.

Then company officials learned  
of the garage mascot and decided  
to do their bit by creating an edu-  
cational fund. So Edward Ryan,  
the first beneficiary and son of a  
large and needy family is going

event and judged by the first  
night's program it will be a very  
successful week.

the girl's popularity contest. The

# SIKI SAYS THAT BOUT WAS A "FRAME-UP"

PARIS, Dec. 4.—The French boxing federation has decided to allow Deputy Diagne, who has declared the Carpentier-Siki bout was "framed" 15 days in which to furnish proof of his accusations, failing which the federation will demand that the chamber of deputies lift the parliamentary immunity of the deputy in order that the federation may institute whatever legal proceedings it sees fit to obtain redress.

Siki supporting Deputy Diagne told today of the match in which he defeated the French idol.

"I entered the ring in a bewildered condition," he said, "and began to do as I agreed, dropping to one knee in the first round after two minutes of fighting. Bernstein (the referee) brought me up sharply, saying 'get up, Siki, you're not hurt.'"

"I was in a trance through the second round discussing within myself whether I should lie down or fight. Georges wasn't hurting me, altho he reached me with two hard rights to the jaw which caused to ringside spectators to grunt much harder than I did.

"At the beginning of the third round I had fully decided that I would take another count as agreed," Siki went on, "but the round had progressed two minutes before Georges hit me hard enough to give me a chance to go down. A right swing then hit me high on the cheek and I said 'here goes,' I dropped to one knee, fully resolved to stay there.

"Then the howls of the multitude reached my head which seemed to clear. He's beaten; the negro is finished," were the jeers that assailed me.

"Then during the seven seconds that I was kneeling before Carpentier I made up my mind to fight. I knew I could win. You remember how I jumped up and swung my left, which caught Carpentier flush on the point of the jaw."

Siki rose and gave a demonstra-

tion for the benefit of Deputy Diagne, who looked on with apparent pride at his compatriot.

"You know the rest," continued Siki, "how Georges, with a pained look of surprise on his face, went down for the count of four and clinched.

"From the fourth round on I did not hurt him too badly. I felt him to be very weak, his blows lacking steam. I whispered to him several times that he should quit, but instead he butted me twice and hit me below the belt, which further enraged me and strengthened my determination to win, especially as the crowd was now favoring me and cheering, while they hooted Georges for his rough work."

## NOTRE DAME PLAYERS DEVOUT GRID HFROES

Centre College gained much fame by defeating Harvard. That great victory over the Crimson caused Centre to be known wherever football is played.

Long before Centre defeated Harvard, however, the little Kentucky school had received much favorable comment because even the athletes found time for prayer.

Centre college is a denominational school. Coach Charley Moran, a great fellow, a maker of men, always had his boys kneel in prayer before the start of the game. Each member of the varsity squad indulged in silent prayer.

Coach Knute Rockne and the boys who comprise the varsity squad of Notre Dame are not unlike Coach Moran and little Centre.

Early worshippers at one of Pittsburgh's down town Catholic churches the morning of the game with Carnegie Tech took several looks at two dozen clean-cut youths marched down the center aisle of the church to receive holy communion.

The athletic youths were members of the Notre Dame football squad. The man who led the devout heroes of the gridiron was Coach Knute Rockne, a maker of football players and real men.

## CRUM OF PALMYRA IS PRINCETON STAR

Birney Crum, star halfback of Princeton, whose eighty yard end run spelled the defeat of Harvard by the Tigers this year, was a member of the Palmyra High school team in the years preceding 1917, and appeared on the Illinois College track and field in the track seasons of '16 and '17 as the representative of that school in the interscholastic.

He attended college successively at Shurtleff, in Alton and Muhlenberg in Allentown, Pa., where he was seen by Princeton scouts starting at quarter.

## CARNEGIE TECH TO PLAY MAROONS

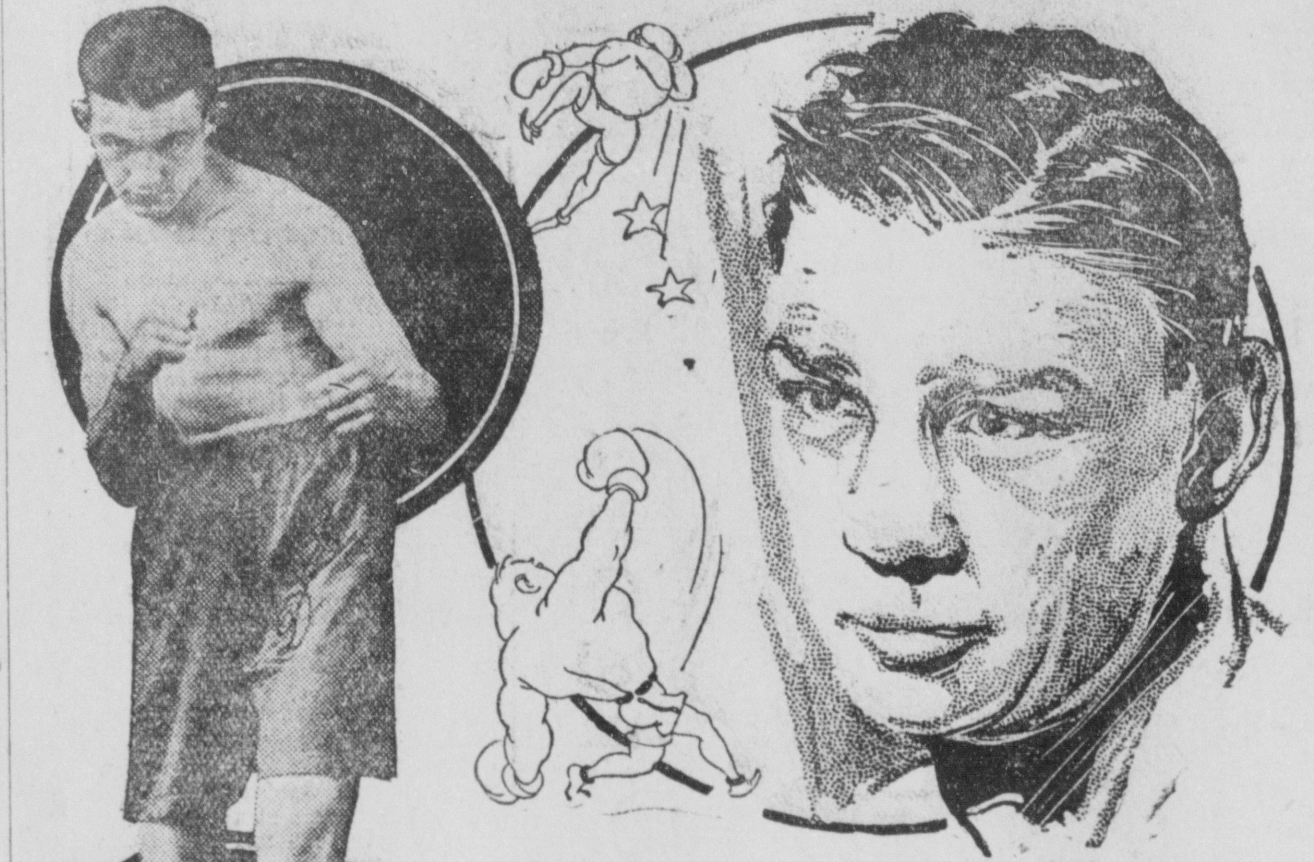

Pittsburgh, Dec. 4.—Carnegie Tech's football eleven will play the University of Chicago on the Maroon's field Oct. 13, 1923. It was announced tonight by Frank Haren, graduate manager of athletics. Chicago is the Alma Mater of Coach Walter Steffen of Tech.

## MILLER TO LEAD IOWA UNIVERSITY

Iowa City, Iowa, Dec. 4.—Glenn "Doc" Miller of Waterloo, Iowa, halfback of this year's Iowa University eleven was elected captain of the 1923 team tonight at President W. A. Jessup's annual banquet to the football squad. He is a junior in the liberal arts college.

# Greb's Title May Be In Danger

JAMES J. DELANEY, WESTERN SENSATION, THREATENS TO UPSET RING DOPE

JAMES J. DELANEY (LEFT, HARRY GREB (RIGHT)

Mickey Walter for the welter

Is Harry Greb due for a surprise when he meets James J. Delaney at Oklahoma, Okla., Nov. 17? Will Delaney continue the habit of dethroning champs that has become so popular?

Who is this fellow James J. Delaney? No doubt that will be your first thought when you read of the Greb match.

Sensation of the West. Jim Delaney, as he is known in fist circles, is the sensation of the west. His fame has not yet spread to the east, but Mike Gibbons and Mike Collins, who are handling his affairs, feel that the effete east will be saying a lot of nice things about him after his fight with Greb.

Delaney is a product of St. Paul, Minn., known in ring circles as the "City of Champions." Just think of it—St. Paul has produced the Gibbons brothers, Mike and Tommy; Billy Miske, Mike O'Dowd, Jack Malone and Johnny Ertle, all former champions or near champs.

Jim Delaney is the latest output of the "City of Champions"

and many of the western critics consider him the flashiest, cleverest and hardest hitting boxer than St. Paul has ever turned out.

Greb Match Big Test. Delaney is 21 years old, a native of St. Paul and Irish thru and thru. His father was born in Tipperary and his mother is from Kildare.

The latest sensation in boxing circles is of rangy construction, standing six feet high, has a reach of 79 inches. He is a clever boxer and has a terrific punch when he sets. His footwork is superb.

Delaney will get his first real trout against Greb. It will give a good line on the youngster, who has been so highly touted. If he delivers against Greb, he will be in big demand in the east.

Delaney is a protégé of Mike Gibbons. For three years Mike has tutored him. The youngster has been brought along slowly. His backers now feel that he is ready to meet any fighter in the world from 160 to 175 pounds.

"Bring on your Battling Siks," says Delaney and he means it.

## MAY ELIMINATE ALL BARNSTORMING

By NEA Service

Chicago—Major League magnates are convinced that some drastic action must be taken relative to barnstorming trips after the close of the season.

A year ago when Judge Landis took action in the Ruth-Mensel case there was a strong sentiment in favor of the players among the major league magnates.

It was felt that it was wrong to refuse the right to barnstorm to players who had taken part in the world series.

Things have changed greatly in 12 short months. Practically every magnate now feels that the players must be held in check. It is certain that definite action will be taken on this phase of the sport at the coming meeting of the two major leagues.

It is hinted that some of the barnstorming troupes in the west have not taken any too good care of themselves. Failure to keep in condition has naturally affected their play and caused a number of big league clubs to badly be beaten by small town teams.

A team made up entirely of major league players engaged in a series with a colored professional team at St. Louis and was badly worsted. The Kansas City club of the American Association played a six-game series with the Monarchs of that city, a professional colored team, and won only one game.

If all barnstorming trips are eliminated after the close of the season the players will have only themselves to blame. They will have brought about such a condition.

President Johnson of the American League admits that barnstorming has become a serious menace. He also says that the club owners in his league have already given the matter much thought.

According to President Johnson a 12-month contract with the players, rather than one extending only six months, is being advocated.

This contract would call for the exclusive rights to the service of the player as a diamond performer and would extend from Jan. 1 of each year until the close of or over a period of years.

The players would receive their pay checks in the winter just as in the summer. Such a contract is believed, would make it possible for the owners to control the action of the players in the winter as well as summer.

Critics of Felding Yost at the University of Michigan insist that his teams do not play modern football. Statistics of the games played this fall disprove such a statement. In six games Michigan tried 84 forward passes and completed 42 of them, or exactly 50 per cent of the attempts. That is going some for a team reputed to be weak at the aerial games.

## BILLY EVANS SAYS

Each year at the close of the football season the annual debate takes place as to which section is supreme on the gridiron.

In my opinion there is mighty little difference between the brand of football as played in the three sections. If there is a shade, it is my belief that it belongs to the west.

Had Chicago defeated Princeton, as it was doped to, and ordinarily would, the west would be doing a lot of crowing about this time. It would have been possible to have doped the west far superior to the east had not Chicago failed.

Chicago crossed the Princeton goal line three times on straight football, John Thomas gaining thru the Tiger line at will and scoring all three touchdowns. Neither Harvard nor Yale was able to cross the Princeton line.

Princeton scored three touchdowns on Chicago. One was the result of a Chicago fumble which was recovered by Gray, who ran 45 yards for a touchdown. The other two scores were the result of a series of forward passes and penalties.

The final Princeton touchdown was largely made possible by a rather fluky play. A long forward pass of about 35 yards attempted. From the press box there seemed no chance that it would be successful as no Tiger player appeared close enough to make a play on the ball. A Chicago player, however interfered with the receiver and Princeton got the distance and first down.

Don't get the impression I am trying to belittle the Princeton victory. I am simply trying to show the manner in which it all came about. Frankly I must admit I was pulling for the Tigers. I am strong for Bill Roper and always admired the Tigers' spirit. But in all honesty I must admit Princeton was very, very lucky to win.

Both teams made three touchdowns, so that the margin of victory, three points, was made possible because the Tigers were able to score thru field goals from scrimmage while Chicago failed.

Had Chicago defeated Princeton think of the bragging the west could have done as Princeton has since defeated Yale and Harvard. In addition, Iowa has beaten Yale. All of which would have made the sailing very rough for the east.

Princeton can certainly be thanked profusely by the east this year for saving the prestige of that section. Otherwise the effete would have suffered badly in many a comparison that would

## COACH ROCKNE PAYS TRIBUTE TO CASTNER

By K. K. ROCKNE.

Notre Dame Football Coach. Paul Castner, who was injured in the game with Butler and put out of play for the rest of the season, is one of the greatest backs the game has ever produced.

I don't believe there ever was a better back than George Gipp. All lovers of football will remember the sensational Gipp, and how death took him off so suddenly at the close of his greatest career on the gridiron. Gipp, I am told, was selected by every football expert in the country that year as a back on their mythical All-American eleven.

Gipp could do everything that a football player is supposed to do. He didn't have a single weakness and what a glutton he was for punishment. Every team Notre Dame opposed was instructed to stop Gipp. He was a marked man in every game, yet no one stopped him, and he seemed to thrive on rough treatment. He was immune from injuries.

Paul Castner was the nearest approach to George Gipp I ever expect to see on the gridiron. Castner possesses all of Gipp's great ability and nerve, but Castner is a trifle brittle. He is unable to stand the pounding that Gipp absorbed with a smile. The heart is there but the body is weaker than the will. Castner like most fast men, is inclined to be hurt more easily than the plodder. Gipp, in that respect, was a decided exception.

It is almost impossible to estimate what the loss of a player of the Gipp-Castner type means to a football team. I believe it would be conservative to say that the offense is lessened 30 per cent.

This year I am fortunate in having a couple of sets of fine backs, but the loss of any star backfield man always makes itself forcibly felt.

PRAISE OFTEN PROCES FATAL. Too much publicity is often fatal to a team as well as an individual. Many a high priced ball player has been hampered by publicity. It seems the germ is just as fatal on the gridiron.

A few weeks prior to the meeting between Nebraska and Syracuse Steve O'Neil, a western coach, said Nebraska could beat Princeton on Thursday, Yale on Friday and Harvard on Saturday.

Overnight the Nebraska team became known as a superteam. Then came the game with Syracuse in which Nebraska was beaten. It was quite a jolt for a team that had been so much advertised.

Coach Dawson, the Princeton star, was in no way to blame for the publicity idea. He ridiculed the superteam stuff.

## DR. DUNN LOSES FIGHT FOR LIFE

Perry Physician Expires Monday Afternoon Following Three Weeks' Battle Against Odds.

Dr. Ben B. Dunn, known and loved thru Pike county and by many professional and other friends in Jacksonville, lost a valiant struggle against terrible odds yesterday at 3 p. m., when death came quietly in after days of pain and suffering from the worst stages of acute appendicitis and its complications.

Cheery to the last, his solicitude for the welfare of others and the desire to lighten cares with a joke persisted to his last hours of consciousness. It was hard even for those who were permitted to see him to realize the desperate situation that confronted him, because of his almost incredible vitality.

Telephone inquiries from Perry where he lived, came several times each day, and many letters of encouragement also came. A leading Mason and a worker for good roads and community betterment, Dr. Dunn stood close to the heart of Perry community spirit and morale. His humor and love of children, with the efficiency and sympathy of his ministrations gained him a unique place among Perry people.

Dr. Dunn was born March 16, 1868, the son of Dr. Harvey Dunn, who had come to Perry as a young man to start his practice. Graduating from Rush Medical college in 1891 he succeeded to his father's practice, which included a large percentage of the medical work of the town. For the last years of his life he was the sole practicing physician of Perry. With the exception of 6 months as army surgeon in the late war, his practice of 31 years was all in Perry. He brought many patients to Jacksonville hospitals for surgical work and nursing.

In 1892 he married Miss Bertha E. Clark, who survives him. A son, born in 1902, died in infancy. There are two brothers, Dr. Frederick Dunn, superintendent of the Utah State Mental hospital at Provo, and Charles A. Dunn, county surveyor of Peoria, and three sisters, Mrs. Mary Shoemaker, Jacksonville; Miss Aileen Dunn, Perry, and Mrs. Martha Jane Armentrout, Spokane, Wash.

The remains were taken to the Williamson Parlors for burial preparation, and services will be held at Perry at 2 o'clock Thursday afternoon.

## SPORTSMANSHIP BASIS OF SELF-GOVERNMENT

Major John Griffith Defends Place of Athletics in Talk Before Second Annual Football Banquet of Kiwanis Club.

"Sport-loving nations are not quarrelsome nations. They have learned not to be. Sportsmanship and self-government co-operate in the history of nations, because the self-imposed rules of many games are a form of self-government that typifies and trains the capacity for civic self-government. Sportsman have learned to fight to the last ditch, to be loyal, to defy when occasion demands the principle of Safety First, and to refuse to give alibis. All of these things are typical of what we want in our citizenship."

These excerpts summarize perhaps the most memorable point of the talk made before those who attended the Second Annual Kiwanis Club Football Banquet at Grace church Monday evening, by Major John Griffith of Chicago. The program was given in honor of the Illinois college and Jacksonville high football teams who were present in a body.

The band of Illinois college was on the scene to furnish music of the instrumental variety, and the entire company of Kiwanians and guests joined in sporadic singing through the banquet under the encouragement and leadership of W. A. Berryman, with Willard Weston at the piano. The banquet was served by the ladies of Grace church.

F. E. Farrell opened the formal meeting by introducing Coaches W. T. Harmon and John Mitchell, who in turn introduced in familiar style the individual members of their teams and discussed the past season. There were three prizes given away. The first, given by John Larson, carried a demand that the man who was selected to receive it give three offenses against football rules and the penalties therefor. After a number had failed to qualify, one member venturing to say he knew two, the prize was awarded to John Johnson on a clever anecdote describing his ignorance of football rules. It was announced that nominations for next year's officers must be complete by the next meeting Thursday noon.

The meeting was turned over to Cole Rowe, chairman of the program, who introduced Major Griffith, editor of the "Athletic Journal" and as a Kiwanian. In addition to his duties as commissioner of athletics of the Big Ten Intercollegiate Conference, The major was for a time with Illinois University in the development of its athletic meets after the war; during the war he was in charge of athletic training of all men in service in this country and prior to the war he was for years at Drake University, organizing the Drake relays which have been copied by the larger universities.

Mr. and Mrs. Clyde Oxley were Monday Jacksonville visitors from Franklin.

"We are not to have universal military training in the United States, which is in some ways a good thing," he said; "but we must have something like universal physical training if we are to get along without the other."

He closed with the appeal for the spirit of athletics as the basis of self-government, outlined above.

## POLICE BATTLE WITH ROGERS

Early Morning Pistol Duel With Men Attempting to Blow Safe in Ferry & Gruber Store—One Captured, Two Escape.

After an exciting revolver battle in which many shots were fired, Patrolmen Williams and Blue of the night police force put two robbers to flight and captured a third surprised in an attempt to blow the safe in the Ferry and Gruber grocery store in East college avenue early Monday morning.

The sound of the firing aroused the entire neighborhood and several citizens appeared on the scene. The officers pursued the robbers toward the railroad yards but lost trace of them in the darkness. Two citizens encountered the men in the yards and one of the men stumbled and nearly fell but it is not known whether he was struck by the bullet.

The store has been visited by thieves frequently in the past few weeks; the last time it was a holdup. The police have been keeping close watch on the place. Monday morning about 2 o'clock Officers Williams and Blue saw two cars traveling north in Hardin avenue. They left the police car in East State street near the Economy store and walked to the Ferry and Gruber establishment.

Evidently the robbers had been alarmed by the passing of the cars and two of them had come outside to reconnoitre. When the officers stepped around the corner of the store into College avenue, they were met by a fusillade of shots. The robbers took refuge on the east side of the store while the officers sought shelter behind telephone poles and the battle started. The men found the place too warm for they broke and ran toward the railroad yards with the officers in pursuit.

## Capture One Robber

The third robber who was evidently the man who used the "soup" was inside and he also joined in the battle, firing from the front doorway. However, he retreated toward the back of the store and sought refuge in the cellar.

Capt. Elliott was at the station at the time and hurried to the scene and Chief Kiloran also hastened to the store from his home. The officers entered the store and demanded the robber to come out of the cellar. He refused and the police told him they were coming down after him. He then weakened and came up and was placed under arrest.

The police spent the remainder of the night searching for the two men but no trace of them was found. Cities and towns within a radius of fifty miles were notified but up to the hour of going to press no word had been received of their apprehension.

At the police station the captured robber gave his name as Charles Procter but claimed that he did not know the names of his companions. He said he met them in Galesburg and that the three came to Jacksonville on a Burlington coal drag.

Procter is about 40 years of age and will weigh about 150 pounds. He is a hard looking customer and the police are confident he is a criminal with a record. His case was taken up by the grand jury Monday morning and an indictment returned against him and it is probable he will get a trip to Chester.

The yeggs obtained a sledge hammer and pick from a section house of the Burlington near East College Avenue. The pick was used to pry open the front door. The hammer probably was to be used to knock off the combination knob on the safe. The robbers had the cracks around the door well soaped when they were disturbed. Had they succeeded in blowing the safe they would have gotten little for their trouble as it only contained a few dollars, as the firm banks its receipts at a late hour each day.

## Gets Another Man

Officer Williams was sent to Roodhouse by Chief Kiloran in the hope that he might get some trace of the two men who escaped. While Williams did not find the men he was looking for he arrested John Barthelow who is thought to have been implicated in a cattle theft some time ago.

Twenty cattle were stolen from the farm of John Laurie north of the city and two men were trying to negotiate a sale at the Jacksonville Packing company early in the morning. The police searched for Barthelow at the time but he could not be found. He also was indicted by the grand jury Monday.

## ANOTHER BUSY DAY AT POST OFFICE

Post Master Dunlap Urges Stamp and Certificate Owners To Present Them Before Christmas Rush.

Monday was another busy day at the Jacksonville postoffice. Scores of people brought in their savings certificates and stamps. Postmaster Dunlap said last night that while so much business has been done in this line, at the postoffice in recent days, that still not more than one-fourth of registered stamps and certificates have been presented.

Because of the Christmas rush of business sure to come it will be almost impossible to take care of stamps and certificates unless they are presented soon. Holders

are therefore urged to present their stamps and certificates at once. This action will make certain that there will be no delay in their receiving the money due them from the government.

If the filing is not done until later delays will almost certainly come. Interest ceases on the certificates January 1, so that it is of interest to the holder to be certain that payment is received promptly.

## CURIOUS FIND MADE IN DEEP WELL

A very curious shell was taken from the borings in the well on the Cleary farm yesterday. The remarkable fact was that a bit of live tissue was attached to the shell, and coming from a depth of more than 1300 feet, presented a real curiosity. Mr. Rhodes has preserved the shell and will send it to the office of the state geological survey for microscopic examination.

The drill is now down 140 feet in the Trenton rock. The rock is very hard and not more than twenty feet a day can be drilled. The outlook for an oil find is now not accounted especially promising, but at the suggestion of the geological survey drilling will be continued.

Mr. DeWolf has advised the local men that drilling should certainly be continued unless water is struck. Thus far there has been no indication of water.

W. L. Bort of Sinclair, a patient Passavant hospital, is recuperating nicely from a recent operation.

## GREENE COUNTY MAN SERIOUSLY INJURED

Oscar Crum Injured Early Sunday Morning When Car Turns Turtle—Other News Notes From White Hall and Vicinity.

White Hall, Dec. 4.—Oscar Crum, a former deputy sheriff, is in his home at Belltown with serious injuries as the result of his Ford car turning turtle on the Gregory hill, immediately south of White Hall, at an hour early Sunday morning. Mr. Crum left White Hall at 12:25 a. m., going direct to his home at Belltown, five miles south, and was on his way back to White Hall when the accident occurred a short distance after he had passed the Gregory school house. What caused the car to overturn has not been learned, but it was found in a demolished condition, having turned completely over and headed toward Belltown.

The accident, it is estimated, occurred at 1 a. m., and at 1:30 Coroner Edwards, of Carrollton, happened along from the north and found Crum lying in an unconscious condition on his back with his feet resting on the running board. Unable to care for the man alone, Coroner Edwards returned to White Hall for assist-

## TYPE OF HARD ROAD WILL LAST FOR YEARS

SPRINGFIELD, Ill., Dec. 2.—(By the A. P.)—The type of hard pavements now used in Illinois on state bond issue roads will withstand all the traffic that probably will be placed on them for many years to come, according to announcement of the State Highway Division commenting on experiments at the Bates experimental road near here.

Experimental traffic runs on the road have been completed for the present. The experiments have been conducted over a period of many months and have been watched by highway engineers and officials from all over the United States.

The highway divisions draws no definite conclusions as to what is the best type of road, but reserves conclusions, it states, until the date can be thoroughly studied.

The greatest traffic imposed upon any section was 377,640 tons, of which 198,600 tons imposed the legal load limit of 4 tons per rear wheel on the pavement sections. The report stated in reference to this:

"Counting truck traffic only this is probably more than the average rural pavement in Illinois would receive in many years. Some of the weaker sections did not receive this amount of traffic as they were so completely destroyed that further loading would give no added information."

Only nine of the original 63 sections came thru without a break. The last experiment consisted of 5,000 night applications of the 8,000 pound wheel load.

## DUNN IN SUPPORT OF CONSTITUTION

Supreme Court Justice of Illinois Writes Justice Orrin Carter that he is for Proposed measure.

SPRINGFIELD, Ill. — Justice Frank K. Dunn of the state supreme court in a letter written to his associate, Justice Orrin N. Carter, who is acting as chairman of the general committee favoring the proposed new constitution, declares himself heartily for the adoption of the constitution on Tuesday, December 12.

"I favor the adoption of the proposed new constitution because the convention taking notice of the changed conditions in Illinois since 1870," Justice Dunn says, "and applying the knowledge acquired by fifty years' experience under the present constitution, has presented to the people an instrument far in advance of the present constitution and better adapted to present and

probable future conditions in this state."

He summarizes his reasons for supporting the constitution as follows:

1. The reduction of the representation of Cook county in the legislature. The principle that small areas with very large population within a state should be limited in their legislative representation to prevent their uncontrolled domination of legislation has been recognized in many states. The cities of New York and Baltimore are limited in their representation in the legislatures of their states and many other states have limited the representation in the legislature of small territories with large population.

2. The change from minority representation to the election of a single representative in legislative districts.

3. The changes of legislative procedure in regard to appropriation bills limiting conference committee reports on appropriation bills to subject matter directly relating to matters of difference between the two houses and prohibiting the passage of any appropriation bill or the consideration of any conference committee report on appropriation bills, unless the bill or the report has been printed in its final form and placed on the desks of members at least three legislative days prior to the final passage of the bill, or the consideration of the report. This ought to make for economy and better considered legislation.

4. The prohibition of any person elected to the general assembly receiving or holding any lucrative civil appointment during the time for which he is elected.

5. The election of a county assessor.

6. The changing in the revenue article authorizing the legislature to provide for an income tax. Our present system of taxation by valuation has long been generally recognized as unfair and oppressive in the distribution of the burdens of taxation and has resulted in visible, tangible property paying a very largely excessive part of the taxes while the invisible, intangible property escapes with only a small part. The proposed constitution places in the hands of the legislature the power to correct this injustice.

7. The proposed constitution facilitates somewhat the adoption of amendments.

8. The judiciary article provides a more efficient system of administration of justice than now exists in any state, within my knowledge. The power given to the supreme court to prescribe rules of pleading, practice and procedure tends to add to the efficiency of the whole judicial system, but not to interfere with the rights of litigants. This power is now in the legislature. It pertains to the methods of the courts in the transaction of the business which comes before them, and it seems only reasonable that the courts should be better informed as to the manner in which their business in which they are constantly engaged can be more efficiently conducted, than the legislature. The courts are given no more authority than they now have to interfere with the operation of laws passed by the legislature. Perhaps in the case of an unconstitutional act a decision may be reached more quickly, but no one has ever before criticized judicial action because it resulted in the speedy administration of justice.

"These are not all the reasons why the constitution proposed by the convention should be adopted," he concludes. "I shall not undertake to state more. I am satisfied that adoption of the constitution is for the interest of the people of the State of Illinois."

#### MISS HALEY DISPUTES CARTER'S STATEMENT

Chicago.—(By the A. P.)—Miss Margaret A. Haley, business representative of the Chicago Teachers Federation today disputed a statement issued by State Supreme Court Justice Orrin N. Carter in defense of the provisions in the proposed new constitution touching teachers' pensions.

"There is no provision in the proposed new constitution," she asserted, "authorizing the legislature to provide for the payment of public money into any pension fund. Section 202 specifically forbids such payment. It reads: 'No extra compensation or allowance shall be given by law to any public officer, employee or contractor after service has been rendered or contract made.'"

"The new constitution provides that pension funds may be discontinued by the legislature at its will. Section 203 provides that the public employees' interest in these funds shall attach only to the fund accumulated and shall impose no obligation on the state to create or maintain such fund."

"The only thing that the proposed new constitution does is to provide that if and when the legislature discontinue any pension fund, the fund on hand shall be distributed to contributors and beneficiaries. The public employees are satisfied that this would be the case under our present constitution."

### ILLINOIS CROP IN EXCELLENT CONDITION

SPRINGFIELD, Ill.—(By The A. P.)—Farm crops have been obtained largely in excellent condition in Illinois, according to the semi-monthly report issued recently by A. J. Surrat, agricultural statistician with the Illinois Cooperative Crop Reporting Service.

"Favorable late fall weather has prevailed during the past two weeks. Rainfall has been sufficient to improve the growth of fall sown crops and pastures. Late field work has made fair progress. Reports covering the general advancement of farm work for this time of year are mostly optimistic."

"Corn husking is over 85 per cent completed. Conditions have been mostly favorable for gathering this crop, and the quality of the crop now in Illinois corn cribs will rate up with the best on record. The movement of new corn to market is light as farmers are inclined to hold for higher prices or for feeding purposes."

"Winter wheat started rather

unevenly due to the earlier soil moisture deficiency, but November rains have noticeably improved and evened up growth generally. The crop will go into winter in a much more satisfactory condition than earlier expected. Reports show an increased acreage.

"Rye condition is about the same as for winter wheat, but very little change in acreage is indicated. Hay reserves on farms are more liberal than usual. The market movement for hay is about normal."

"Live stock reports continue to show a market gain in feeding operations this season, especially in the northern half of the state. The recent shipments of feeders out of the stock yards is reported the heaviest in years. Hog cholera, tho not extensive, is slightly more prevalent than two weeks ago, other wise the health condition of all farm live stock is very favorable. The fall pig crop shows a substantial increase over that of last year."

"Farm labor supply is more than ample to meet the present farm demand."
